EXAMINATION ON SAFEGUARDING MILITARY INFORMATION

This examination on Safeguarding Military Information must be completed in one (1) hour. There are thirty-three (33) questions. A perfect paper is worth one hundred (100) points. Three (3) points will be taken off for each incorrect answer; sixty percent (60%) or higher constitute a passing grade. The questions have been so designed and worded that there is only one correct answer to each one.

The first twenty-five (25) questions are of the "True-False" variety. At the left margin of the paper there are two (2) columns, one headed "True," and the other headed "False." If the statement is "true," make a check mark or an "X" in the "True" column. If you think the statement is "false," make a check mark or an "X" in the "False" column. All questions marked in both columns or not marked in either column will be considered incorrectly answered.

The last thirteen (13) questions are of the "Multiple Choice" variety. You are given the choice of four (4) answers. Only one (1) of these is correct. Underline the correct answer.
